

# Which Kind of Certificate?

The pathway to a Standard IRC Certificate is straightforward because measurements can be taken by the owner.

Obtaining an Endorsed Certificate may require the services of a US SAILING-certified measurer, but if your boat is an IRC One-design class or has recent and accurate ORR or IMS certificate, you may be able to bypass all or most of the measurements.

Contact the US SAILING Offshore Office for guidance.

 **Applications go to US SAILING**
